

In the Specification:

Please amend the paragraph [0024] as follows:

[0024] The edge of the tire rotational direction side edge portion 4c is cut off to have a chamfered face m in the form of a circular arc in cross section. The chamfered face m may be in the form of a straight line in cross section. In contrast, in this embodiment, the tire reverse rotational direction side edge portion 4d is not chamfered, as shown in Figure 2.
